**Addendum #5 To
Request for Proposal
For Prentis Computer Lab Relocation 2018: Project 122-313456**

Dated August 14, 2018

Please find the following clarifications for the above RFP opportunity.

1. Language in the SOW calls out an optional bid opportunity for video surveillance systems, yet I see no specifications for such. Is this system part of this bid package?

[See Item 10 of Addendum No. 4](#)

2. In some regard, the same question can be asked of access control products. The SOW calls out for the installation of cable to some reader devices, no mention of the readers or other required product. Please advise

[See Item 10 of Addendum No. 4](#)

3. Amended drawing E102, Key Note 1 calls out the installation of surface mounted raceway in rooms 204 and 208. This same detail looks to be present in rooms 210, 211 and 213. Should we include the raceway in these rooms as well?

[Yes. Keynote 1 is also present at these locations in 210, 211, and 213.](#)

4. Please confirm that we are providing and installing all power poles detailed in key notes 2 and 12 on this same drawing

[Yes, all power poles are provided and installed by G.C.](#)

5. Are we to provide and install wireless access antennas? If so, are we providing a wireless controller as well?

[Wireless access points are existing to be relocated. At time of demolition, contractor is to remove and store APs for reinstallation at new locations indication on the electrical drawings.](#)

6. If we provide the wireless AP's, which brand and model are desired?

N/A

7. The SOW discusses demolition of existing spaces, are we responsible for the removal of existing low voltage cable or will that be assigned to another group?

Yes, G.C. is responsible for removal of existing low voltage cable.
