ADDENDUM

PROJECT:  WSU - EACPES - Team Based Learning Facility 603-249987
            Detroit, MI
OWNER:  Wayne State University
            259 Mack Avenue
            Detroit, MI 48201

ADDITIONAL NO.:  001
DATE:  16 April 2015
IA PROJECT NO.:  20140911
CONTRACT FOR:  Bidding & Permits

Intent:  The original specifications and drawings dated 20 March 2015 for this Project, plus all previously issued Addenda, are revised as noted in this Addendum. All cost and schedule implications of these revisions are to be incorporated in the Bid, and acknowledgment of receipt of this Addendum must be indicated in Bid form.

Content:  This Addendum consists of 1 page(s), plus the following attachments:
          Drawings Reissued:  A1.4; M1.4

COPIES TO COMPANY
1  Robert Hoekstra; Erinn Rooks, Daisy Wright  Wayne State University

A. Clarification / Revision of Project Scope

SPECIFICATION ITEMS:
1. Refer to Specification Section 012300 - Alternates – (Not Reissued):
   a. Revise 3.1.A to read as follows:
      “Alternate No. 1: Add the purchase and installation of the operable partition only as described in the Specification Section 102226 “Operable Partitions”.
      All operable partition work related to the ceiling, bulkhead, pocket wall construction, HVAC, electrical, fire protection and other system modifications, and purchase and installation of the operable partition track in preparation for the installation of the operable partition shall be base bid. See Drawing A1.4, M1.4, E1.4”.

ARCHITECTURAL DRAWING ITEMS:
2. Refer to Drawing A1.4 – Fourth Floor Plan & Reflected Ceiling Plan (Reissued):
   a. Add Demolition Key Note 5 as shown on the drawing.
   b. Revise Demolition General Note 19 as shown on the drawing.
   c. For clarification, show a portion of the existing corridor lay-in ceiling in the area of the new double egress door as shown on the drawings.
   d. Revise Fire Protection Note 3 as shown on the drawing.
   e. Add sprinkler head symbols to the Fire Protection Notes as shown on the drawing.
   f. Add existing and new sprinkler head locations as shown on the drawings.

MECHANICAL DRAWING ITEMS:
3. Refer to Drawing M1.4 – Fourth Floor Demolition And New HVAC Sheet Metal Plan (Reissued):
   a. Revise HVAC slot diffuser at new door entry.
      1) Demolition Plan: Remove existing 48” slot diffuser at future double door location.
      2) HVAC Sheet Metal Plan: Add (2) new 24” long slot diffusers, one on each side of new doorway. Rebalance airflow of existing diffuser equally between new diffusers.
