March 10, 2022

Addendum #3 To
Request for Proposal
RFP Campus Filter Fulfillment 2022 dated February 21, 2022

This Addendum must be acknowledged on Schedule D

As a result of the release of Addendum Two for the Campus Filter Fulfillment 2022 released March 9, 2022, the question that was submitted has been further clarified. The question, and the University final response are as follows:

1. Camfil does not offer MERV 10 pleated or MERV 11 Poly panels. Would an alternate MERV 9 or 11 pleated and Dustlok MERV 9 be ok to replace MERV 11 Poly panels?
   Response: All filters must be MERV 13 Pre/Bag AND Final, minimum.

As a result of the lateness of the release of this Addendum, the bid due date has been extended. All proposals are by 4:00 p.m., March 14, 2022.

Do not contact the FP&M Support Services, or other University Units, directly as this may result in disqualification of your proposal.

Thank you
