Wayne State University- ADA Snow/Ice Removal

Facilities Planning and Management (FP&M) along with Parking and Transportation Services (PATS) understands the special needs of our disability students, staff, and visitors. The difficulty of maneuvering over snow and ice adds additional burden to anyone with a disability. All efforts will be made to keep the handicap spaces, including the walkways leading to and from the handicap, clear and free from snow and ice to allow easy access.

PATS contracted snow removal vendors who will work with FP&M Grounds Department to oversee the areas as marked on the following pages. The blue striped areas designate handicap parking spaces and the dashed orange lines represent the walkways.

Snow Removal Phone Numbers
