Each proposal should provide a straightforward concise description of the VENDOR’S service, approach and ability to meet the UNIVERSITY'S needs as stated in this RFP. Schedules and Exhibits listed below must be included in your proposal:

Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective quotation are not desired.

**G. Proposal Evaluation**

1. Proposals will be evaluated and award will be based on the VENDOR’S ability to offer the best value (quality, past performance and price), and on anticipated quality of service. Items considered include but are not limited to:

- Cost of Services; Compensation and Fees; (Schedule C);
- Financial Strength of the VENDOR;

NOTE: Evaluation Criteria are in alphabetical order and are not stated in order of preference.

VENDOR proposals will be evaluated by a team consisting of members of the UNIVERSITY'S Procurement and Design and Construction Services. A preliminary screening will be used to identify competitive VENDORS who have met the mandatory requirements. Procurement & Strategic Sourcing may subsequently request selected VENDORS to make a presentation at a set time and date, to clarify information provided in the proposals. Final consideration, evaluation, and recommendation may be made at this point. However, the UNIVERSITY reserves the right to take additional time for reference review, site visits and/or proposal negotiations.

2. To qualify for evaluation, a VENDOR'S proposal must be responsive, must have been submitted on time and must materially satisfy all mandatory requirements identified throughout the RFP, in the judgment of the UNIVERSITY. Any deviation from requirements indicated herein must be stated in the proposal specifically under the category "Restricted Services", and clearly identified as Exhibit 1. Otherwise it will be considered that proposals are in strict compliance with all requirements. Check the box indicating "None" for Restricted Services on the Proposal Certification Schedule A. In those cases where mandatory requirements are stated, material failure to meet those requirements may result in disqualification of the VENDOR'S response.

3. If there are portions of any proposal the UNIVERSITY finds unacceptable or otherwise in need of clarification or revision, the UNIVERSITY reserves the right to clarify or negotiate with any or all VENDORS. Should the outcome of evaluations result in a recommendation, any resulting contract will be subject to the approval of the UNIVERSITY'S General Counsel and must be approved and signed by the appropriate UNIVERSITY representative.

4. After notification of acceptance of proposal and the signing of a resulting agreement and/or Purchase Order, the successful VENDOR will be expected to establish and be in a position to commence work or services on or before October 1, 2018.

6. Any alternative ideas or proposals that should be considered by the University in addition to the base proposal.

III. SCOPE OF WORK AND TECHNICAL REQUIREMENTS

A. Project Requirements and Specifications:

The University is requesting proposals from qualified companies to assist in the solicitation and selection of Design Professionals and Construction Managers for major construction projects. This will include the request for proposals for major construction projects as well as the University’s Preferred Design Consultant Program and the Preferred Master Agreement with Time and Material Trade Contractors. Additional assistance is sought in documenting and updating process improvements for Design and Construction Services. The department is embarking on an initiative to document and improve processes, as a starting point for more global continuous quality initiatives.

The goal of this engagement is to provide third party assistance in the solicitation and selection process on major capital construction projects and preferred vendor programs as well as a contracting method to provide supplemental the project management services for process improvement efforts.
Description of the University:
Design and Construction Services (D&CS) is responsible for managing all stages of construction on campus. Nine project managers oversee the design and construction of over $300 million in projects currently. For major capital construction projects, the University uses traditional design/bid/build and Construction Manager at Risk contract methods to procure construction services. Smaller projects utilize the Preferred Vendor Design Consultant and Master Agreements for Time and Material Trade Contractors to execute projects.

Scope of Work:
The consultant will collaborate with D&CS and the Procurement Department to create an updated RFP process for selecting Design Consultants, Construction Managers, and Preferred Vendors. The consultant will support the writing of the request for proposal, establish pre-qualification process, formulate the selection criteria, review and score the proposals, participate in the interview process with the University representatives from D&CS and Procurement, draft the recommendation letter and debrief the vendors that were not awarded the project.

The projects currently defined for completion in 2018 are the solicitation and selection for the Preferred Vendor Design Consultant Program and the Time and Material Trade Contractor Program. Though the RFPs previously used for these solicitations will be shared with the selected vendor, the University seeks assistance in creating an efficient, diverse program that meets design and contracting needs of the campus community. This assignment will include determining the proper quantity of consultants, a simplified tracking system to ensure equal distribution of work, and the comprehensive list of the types of consulting services required by D&CS. The range of projects to be facilitated by the Design Consultant Program include but are not limited to small $25,000 interior renovations to $4,000,000 mechanical digital control conversions.

The Time and Material Trade Contractor Program allows the Small Capital Construction project managers to act as general contractors for projects as small as a single outlet up to $50,000 worth of work for a single trade contractor. The consultant will assist in identifying the trades contractors needed to complete the most frequently used services and solicit fair market value pricing for the material and labor for these services. Creating efficient processes to estimate and invoice this work so that projects can be initiated quickly, invoiced promptly, and approved timely is critical to the program.

As large construction projects are defined, approximately two per year starting late in 2019, the consultant will support the solicitation and selection of Design Professionals and Construction Managers. D&CS seeks assistance in refining and updating the current request for proposals that provides the vendor qualifications that inform the criteria-based section. The RFP needs to comprehensively define the scope of the project, services, deliverables, and the criteria for selection for the particular project with an emphasis on collaboration and current industry trends of best practices.

The consultant will be expected to create a prequalification process to limit the quantity of vendors requested to provide proposals. The process will provide the University with the ability to publically advertise projects to provide opportunities to the largest number of vendors while also providing the ability to select the most qualified vendors for the project to compete for the award of the contract.

D&CS is undergoing several process improvement initiatives which as identified during the analysis may require assistance from the consultant to document. The University seeks to retain a consulting firm that will assist in updating business processes and design standards. The consultant may be engaged to assist D&CS management, the Office of General Counsel or an outside attorney to create template contracts for Design Services for projects delivered with a General Contractor delivery method and a Design Build.

The University is looking for best value for these services. The consultant will supplement the project management services provided by D&CS and will only participate in the selection processes defined above. No further project management services will be needed.

The University reserves the right to award this order in part or in whole, as a single award or as two separate awards for a 5 year period ending in spring of 2023.

Deliverables
A master contract will be established with individual purchase orders issued for each assigned project. Deliverables will be defined per project assignment based on hourly rated defined in this proposal.

Criteria for Selection
The University will select the consultant that best meets the needs of the University for completing these services. The selection will be based on the details contained in the response to the RFP, interviews and reference checks.

- Accurate and specific responses for all information as outlined in this RFP.
- The quality and comprehensiveness of responses during the interviews.
• The qualifications and experience of the proposed project team (firms and individuals) and a demonstration of their ability to successfully deliver the required services.
• Checks of references provided by the Consultant.
• Fees and schedule will be considered to determine the best value for the University.
• The quality and comprehensiveness of the project approach as presented in the RFP and interviews if requested.

These criteria are not listed in any particular order. The University reserves the right to request additional information at any time during the selection process.

Expenses for developing and presenting proposals are considered to be marketing expenses, and shall be the responsibility of the Consultant and shall not be reimbursed by the University. All supporting documentation submitted with this proposal will become the property of the University and may be subject to Freedom of Information Act disclosure.

Proposal Requirements:
All consultant responding to this RFP must submit complete responses to the applicable information requested in this section and clearly note any exceptions to any information contained in the RFP.

Clearly identify the name, address, e-mail and phone numbers of the project representative designated to receive all RFP information, addenda or any other official correspondence relating to the project.
Provide a profile of the local office presence and capabilities to support this project.

Experience:
Proposing consultant will need to demonstrate sufficient experience in the roles defined above to provide substantive contribution to the process. Provide detailed information on previous project experience as it may relate to the scope of this request. List all experience with similar services including the company name and reference with contact information. The consultant will need to provide examples of leading a minimum of five selection processes in the last three years. This shall be considered the minimum criteria in order to meet pre-qualification requirements. Proposals that do not meet this may be deemed non-responsive and rejected. Evidence of previous experience with services similar in nature and completed within similar environments will be heavily weighted in the selection criteria.

Team:
Identify your proposed candidate(s). Include the staff qualifications, biographies, roles and responsibilities that make them ideal candidates for request. Include relevant experience on similar work.

Approach:
Describe your team’s project approach, defining methods of obtaining an understanding of the project, interacting with the University, and the challenges anticipated in performing the requested services. Distinguish your team from your competition.

Schedule:
Describe the availability of your firm to start the requested services and the amount notice needed to begin on any future undefined projects.

Proposed Fee:
Using the level of effort work plan provided indicate hourly billing rates for all personnel who will work on this assignment. Identify a line item for estimated reimbursable expenses that is to be included in the total project cost, if any. List and define any other assumed fees.

Non Acceptable Reimbursable costs are:
• Transportation to/from and parking at the University from the Consultant’s place of business.
• Vehicle charges, vehicle rentals, (except those related to short term, long distance travel pre-approved by University as described above) or per diem travel rates, etc.
• Reproduction costs for routine documents during owner review. Currently, WSU posts documents electronically on WSU Purchasing Department’s website. Consultant must submit documents in electronic form.
• Local and long distance telephone; fax services; internet connections, services or use.
• Ordinary shipping, express package services, postage and handling fees.
• Incidental computer work such as word processing; CAD license fees; plotting fees; equipment use charges; etc.

Specify whether the fee covers all services outlined in this RFP. Proposals should list any items excluded from the services proposed. Proposals should also list those services that should be made a part of this scope of work, but were not requested by the University. In the latter case, provide a proposed fee(s) for those services.

As part of this Agreement, the undersigned agrees to the terms of this Confidentiality and Non-Disclosure Agreement (the “NDA”) as follows:

1) Confidential Information

For the purposes of this NDA the term “Confidential Information” shall include any information received by the Supplier, from the University, in the course of providing services as described above, including but not limited to: (i) any and all technical and business information of the University and (ii) information from third parties related to health care services and research.
